CAN Brief

RCMP

- Event being tracked by RCMP as NS event due to rhetoric surrounding removal of government and location around Parliament, which is considered critical infrastructure.
- Ideology is largely anti-government, anti-vaccine, anti-mandate. Seeing some disputes between groups.
- IMVE individuals active on social media, although not crossing threshold to actively inciting violence (noted one incident when two individuals tried to set a building on fire and lock the door – was reported in media).
- Aware of and looking into alleged role of protestors with former ties to police and/or military.
